MEMO

To: ECONOLodge MOTEL - ²⁸⁰⁸~~2826~~ N. KANSAS EXP.
From: Gene Pabst *GP*
Subject: Gasoline odor in craw space.
Date: June 29, 1998

When I returned to the office at 10:45 A.M. (June 29, 1998) I found a note on my desk from Randy Lyman that the Econolodge Motel, ~~2826~~²⁸⁰⁸ N. Kansas Exp., was experiencing a gasoline odor in their crawl space. Apparently this problem started over the weekend. I went to the area and checked the following manholes and obtained these results: (See attached map)

Wye Map JA-K-L 18, W1

Manhole	19	0%	No odor
	2	0%	Sewer odor
	3	0%	No odor
	4	0%	Musty odor
	5	-	Could not find

Fast 'N Friendly - Sampling Manhole	0%	No odor
Cleanout above sampling manhole		No odor
Cleanout to South of sampling manhole	0%	No odor

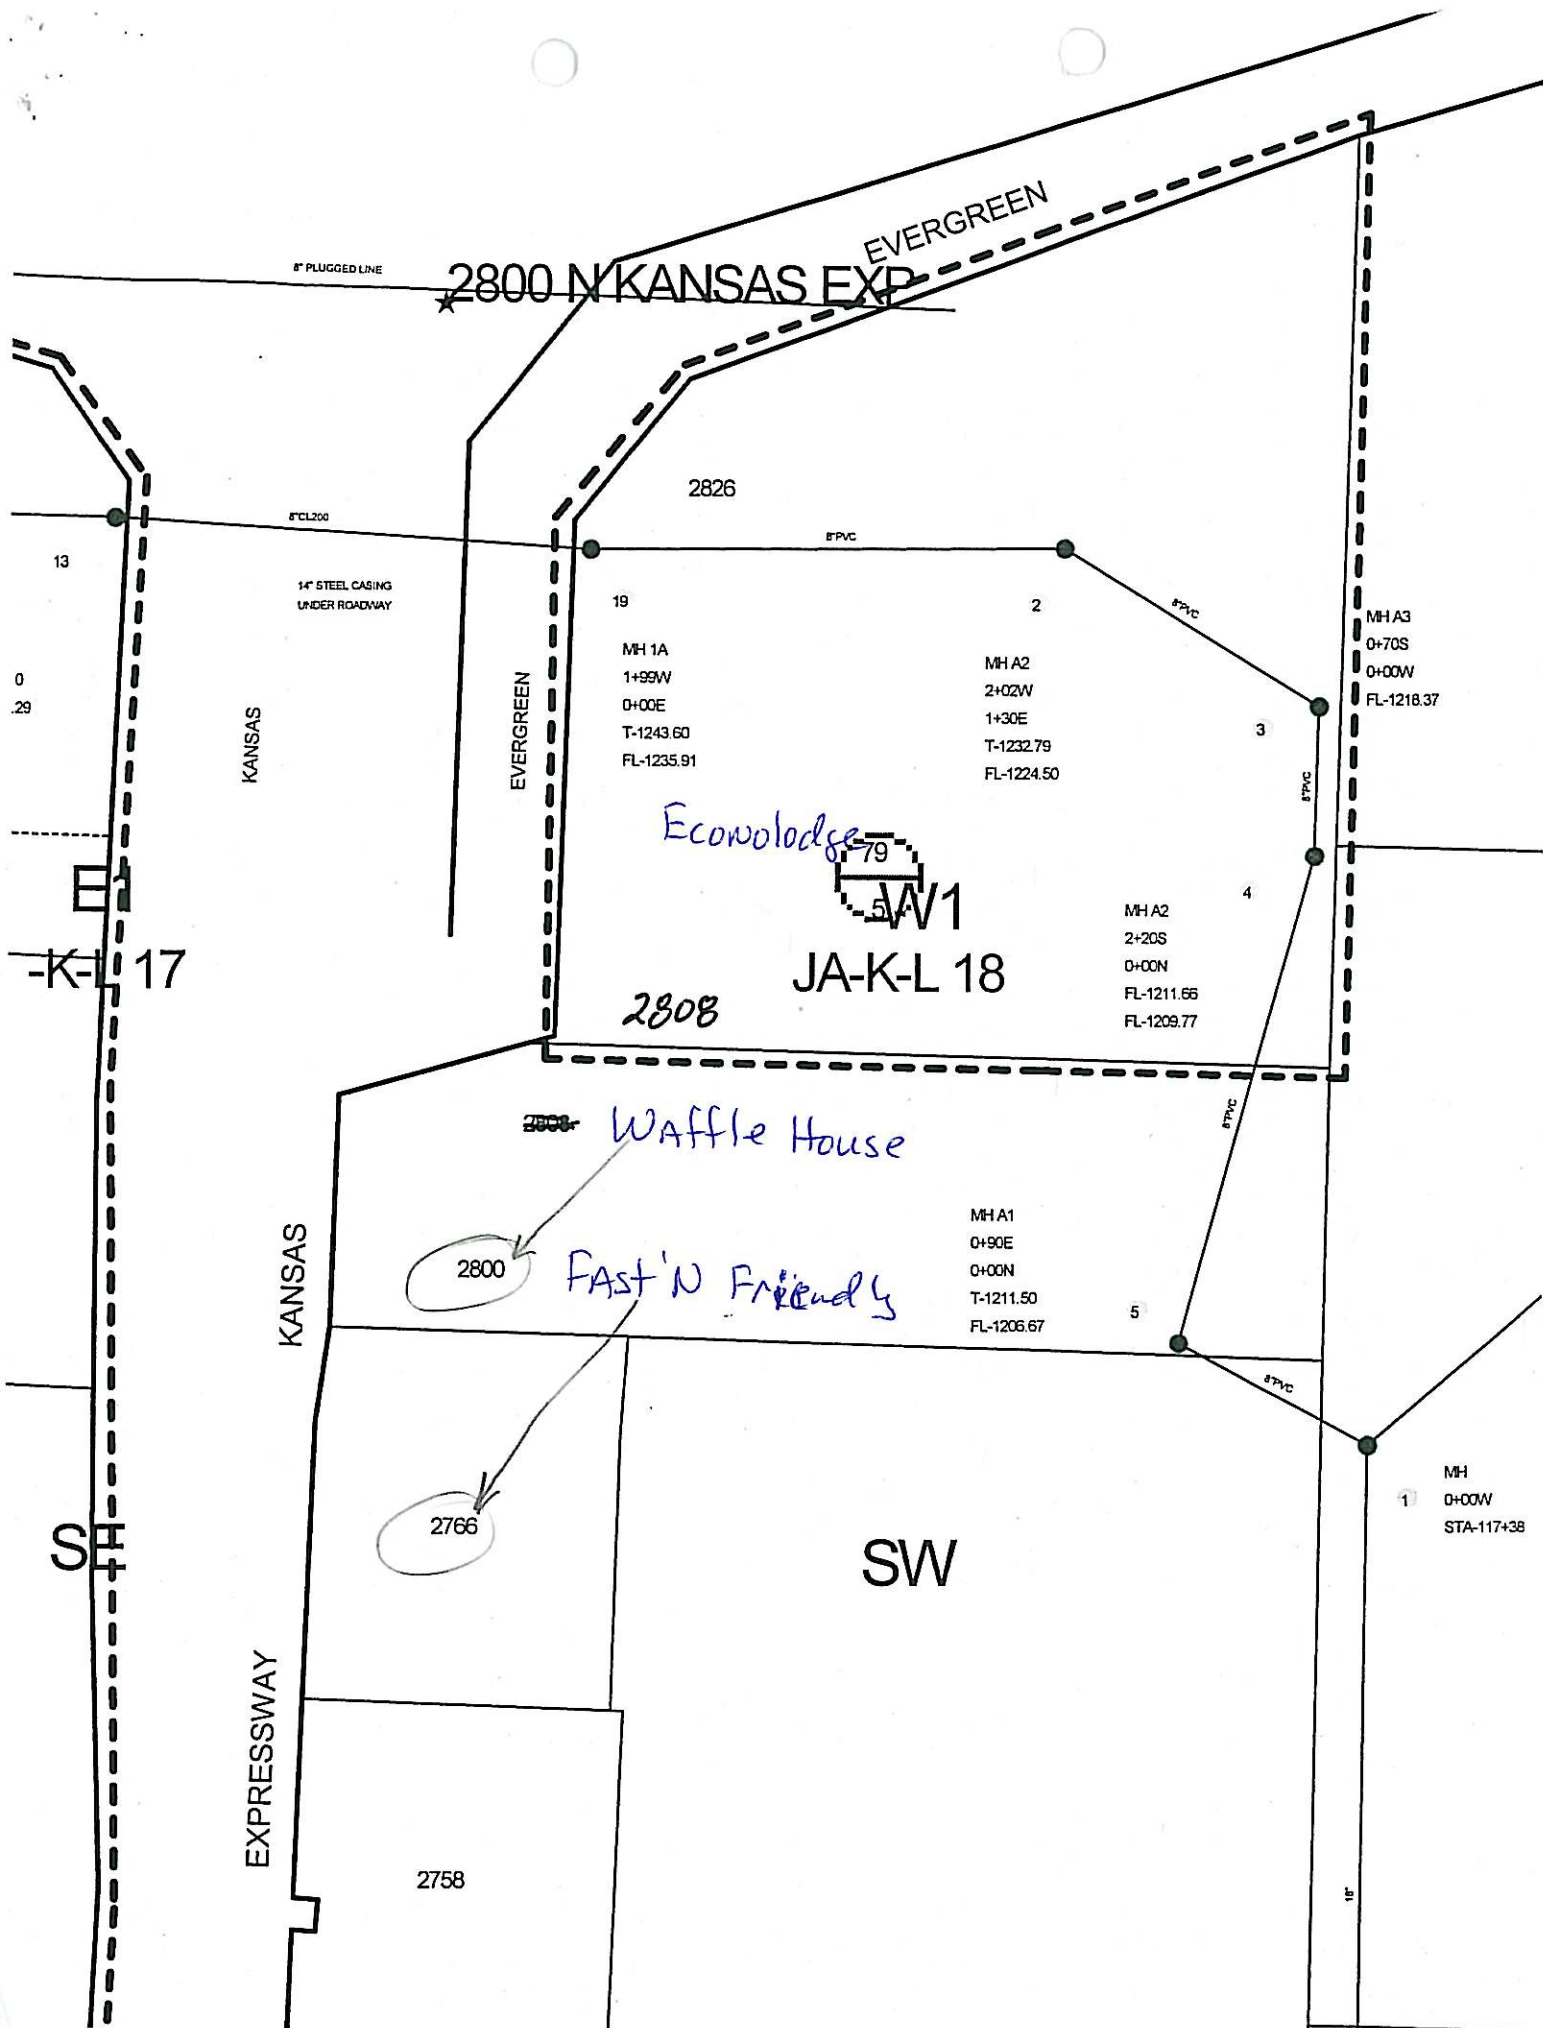

Waffle House - Sampling manhole 0% Sewer Odor
Manhole ring an cover pushed 1/2 off of sampling manhole.

Karen Schaefer and DNR representative were there. I told them I found nothing in the City sanitary sewer. They said that they thought it was coming from the Fast 'N Friendly and that they were going to test their lines.

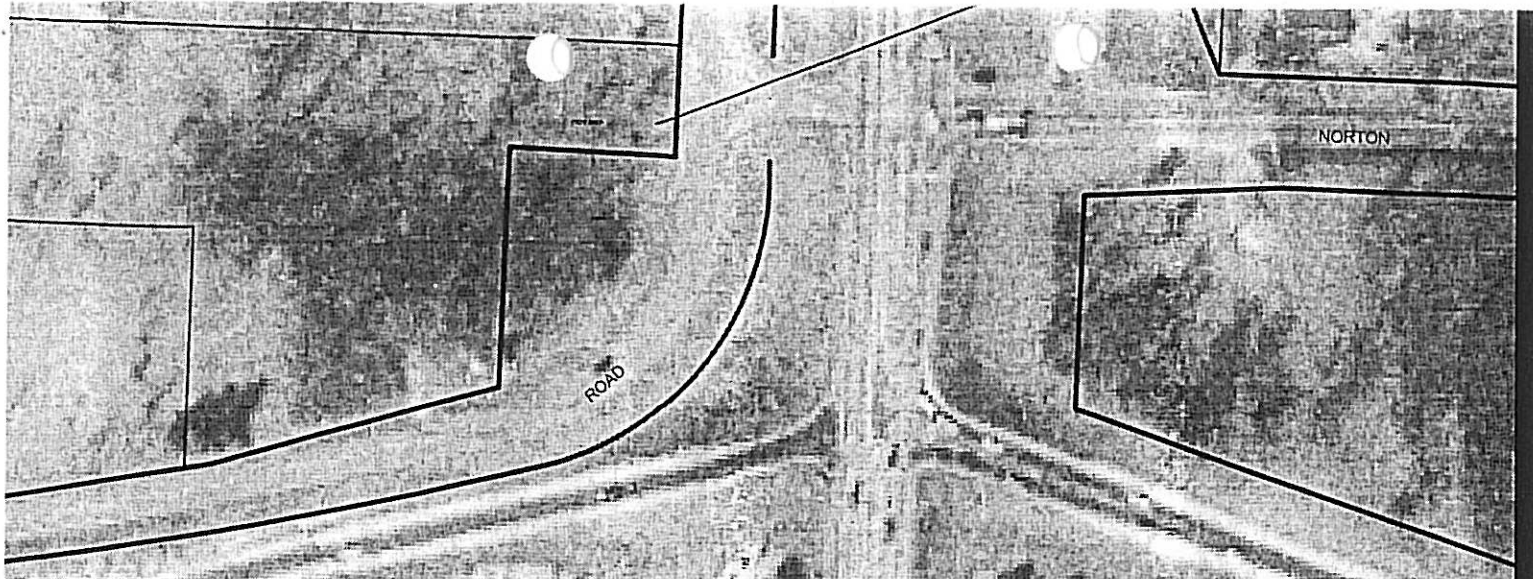

The Econolodge was venting their crawl space and you could smell gasoline fumes.

DNR personnel said that they were going to have a meeting of all concerned parties at 4:00 P.M. today and wanted someone from our office to attend. This will be a planning meeting as well to keep everyone informed of what is going on.

Econolodge Motel 2808 N. Kansas Exp. 2808
Gasoline odors in "crawl space" over weekend.
Donna Pearson (8486) called and said they shut
off utilities, had difficulty getting Fire Dept. to make any decision turning utilities on/off. Will call
Hosea Lawrence. We have no knowledge that a call was made regarding any impact in the sanitary
sewer system. We should check the sewer in the vicinity as a precaution. DNR is aware and has been on site.
